ENHANCEMENTS

The following enhancements have been made.

1.1 SEMPER WEB

Setup & Admin

Room & Product Rates

1.1.1 Enhanced the loading speed of rates when switching between different months within a rate selection.

1.1.2 To provide a comprehensive record of changes made to Room/Product Rates, an activity log will now be generated for the following events:

- Creating a new Room/Product Rate:
  Example: User selected to create a new Room/Product Rate.
- Clicking on the 'Change' button to open a selected Room/Product Rate:
  Example: User selected to change an existing rate {RateName}.
- Copying an amount from left to right or vice versa within a Room/Product Rate:
  Example: User selected to copy rates from {dd/MM/yyyy} to {dd/MM/yyyy} for room type {Room Type Name}.
- Saving changes made on a Room/Product Rate by clicking the save button:
  Example: User changed rate(s) - {RateName}.

BUGS

The following issues have been resolved.

1.2 SEMPER WEB

Calendar

1.2.1 Flickering of the pop-up box when hovering over reservations on the calendar.

1.2.2 Housekeeping status on the calendar did not update when the status was changed via the Housekeeping module.

Reservations

New Reservation

1.2.3 The accommodation default rate was not displayed or auto selected in the rate drop when you creating a new booking using the New Reservation function.

1.2.4 Rates marked as the Extra Product Default rate as well as the Accommodation Default Rate were excluded from the list of rates.

Front Desk

Cash-up

1.2.5 Posted sales were not displayed as negative amounts on the Cash-up report.

Accounting

Cash-up Management

1.2.6 Posted sales were not displayed as negative amounts on the Cash-up Management reports.

1.2.7 The Cash-up Management Summary report did not display the correct balance.

Setup & Admin

Room & Product Rates

1.2.8 Implemented a loading spinner to prevent users from navigating to another month while the current month rate is still loading.

Stock Control

Transfer Stock

1.2.9 When transferring multiple stock items using the search product function, only the last item selected was transferred.

1.3 SEMPER

Stock Control

Goods Received

1.3.1 The recording of returns on a Goods Received Voucher (GRV) was not possible after the items had been transferred to different storage areas.

1.4 ADD ONS

Booking Engine

Rate Rules

1.4.1 Guests were able to create reservations for arrival dates that were marked as “Closed on Arrival”.
