SECTION 1 – ENHANCEMENTS

LOGIN SCREEN

1. Added MFA (Multi-Factor Auth) to the SHD when logging in.
    a. When a user logs into the SHD, an OTP will be sent to the user's cellphone via SMS.
2. Added a "Reset" button.
    a. The reset button will take the user back to the start where the user is required to insert their username & password.
3. Added pop up messages to appear should the user enter the incorrect username, password or pin.
