SECTION 1: BUG FIXES

RESERVATION MANAGEMENT SYSTEM

Accounting Close & Post

1. When posting a close to Sage the user gets an error "Valid Selection is Required".

Commission

2. When reallocating all accommodation transactions on a group reservation from the individual rooms to the master room, the commission was not being regenerated correctly. It was only generating for 1 room and not all the rooms in the group.

SEMPER ADD-ONS

Pre-Check-in

1. After changing the email & SMS Body message, the default system message was still being used on the email and SMS sent out to the guest.
2. After changing the email subject message, the default system message was still being used as the email subject on the email sent out to the guest.
3. When opening the pre-check-in link on a cellphone and selecting to take a photo to attach, the camera was not coming up.
