Semper

Patches

Version: 8.2.1.2502

SEMPER

RESERVATIONS

Server

1. Error after starting the server:
   Could not run ExecuteReader
   at DatabaseHandlers.SQLServer.SQLDatabase.ExecuteReader()
   at SdlUtils.SdhProducts.LoadAll()
   Execution Timeout Expired. The timeout period elapsed prior to completion of the operation or the server is not responding.

Invoice/Proforma

1. When the invoice setup is set to summarize packages, the levy line in the summary section did not display on PDF Template 1 & 2.
2. The Sales Excl. column on PDF Template 2, was not excluding TAX and levies.
3. Summarising of levy transactions was not correct when there is only 1 child on the reservation.

SEMPER WEB

ACCOUNTING

Refund Management

4. BPay Refunds will no longer show in the refunds drop down if a BPay payment is not first selected.

SETUP & ADMIN

Documents

Variables

5. Added 2 new variables:

   - Days30Less
     - This variable is to replace the Current variable if the venue is not using the following variables:
       7Days
       14Days
       21Days
       28Days

   - DAYS28PLUS
     - This variable must look at everything older than 28 days
     - This variable will be used instead of the 28Days variable if the venue is using the following variables:
       7Days
       14Days
       21Days
       28Days

POS ADMIN

STOCK CONTROL

Purchase Order

6. When converting a Purchase Order to a Goods Received, the total amount on the Goods Received is different to what was on the Purchase Order. This was due to a rounding issue. Example: Purchase order: 360 eggs @ R575. When you convert this purchase order to a GRV the amount changes to R576.

CONFERENCE

RESERVATION

Invoice/Proforma

1. When the summarize conference package setting is on, the total on the proforma/invoice is not correct.

REPORTS

POS & STOCK CONTROL

Revenue Centre

2. The profit % on the income by the revenue center report is not calculating correctly.

RESERVATIONS

Room Types History & Forecast

3. The **date format** on the excel document was **incorrect**.

Reservations by Booked By

4. The **Total** line under each section was under the **incorrect columns**.

INTEGRATIONS

NIGHTSBRIDGE

Remote Reservations

5. The unit price for items will now be sent to **NightsBridge** instead of the unit price x the quantity.
6. In-house reservations showing blank when selecting to view in-house tables in POS.
