Remote Reservations Management

Semper

Remote Reservations Management

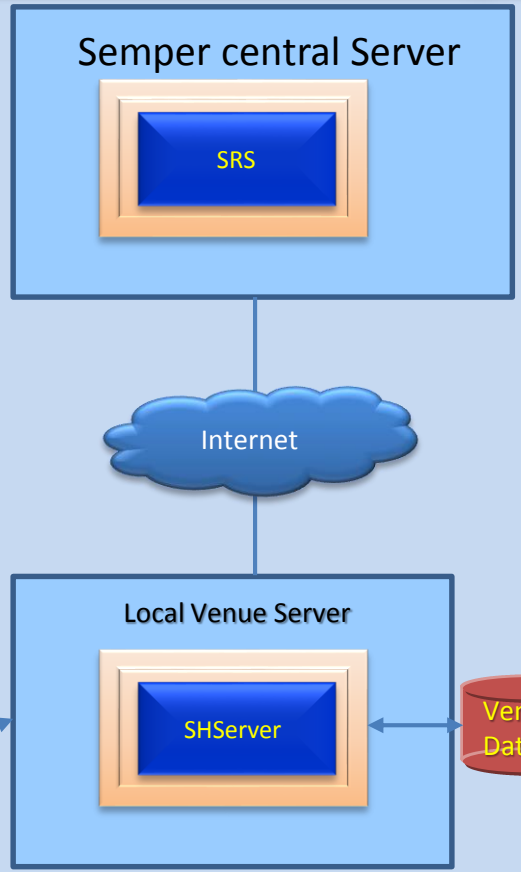

Semper

Any PC with MS Windows (soon available on tablets and cell phones) can:

- ✓ View reservations taken at the venue
- ✓ Make certain changes to those reservations
- ✓ Record new reservations
- ✓ Record transactions for accommodation as well as extras
- ✓ Record payments and discounts
- ✓ Produce confirmations and quotations
- ✓ Generate invoices

New reservations and changes to existing are auto synchronised to your local Semper system

Remote Reservations Management

Semper

When is this recommended?

When your internet from your venue in slow or sporadic e.g. below 3g at times

Benefit

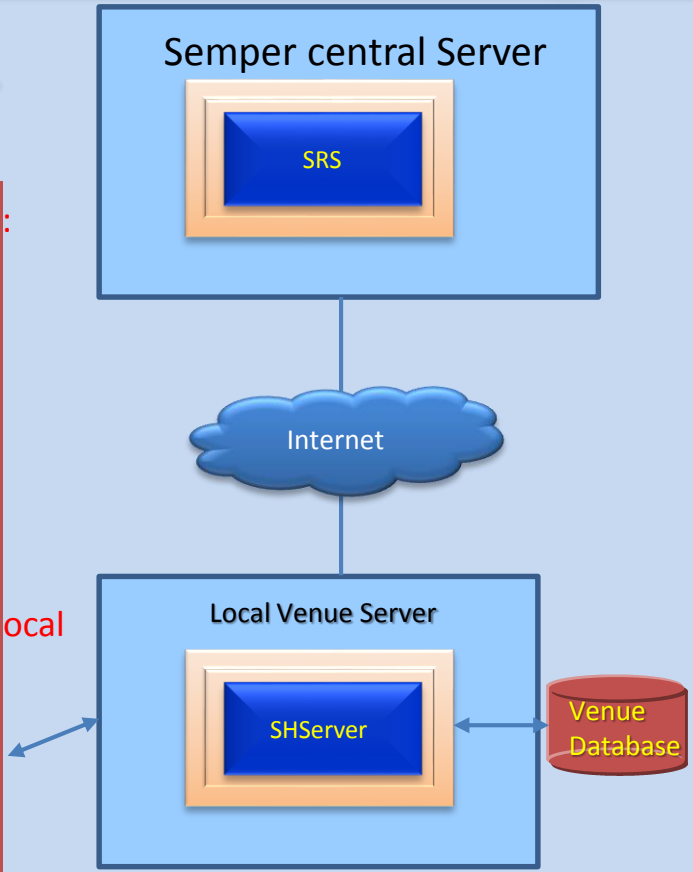

- ✓ Manage reservations remotely
- ✓ Don't require internet to be up all the time
- ✓ Extended capabilities when recording and managing reservations remotely
- ✓ Soon available on tablets and cell phones

Cost

R50 pm irrespective of the number of remote terminals
